

February 1<sup>st</sup>, 2010

Prepress Manager  
Prepress Consultants  
21129 Chase Dr  
Novi, MI 48375-4751  
USA

Dear Prepress Manager:

This letter is being sent to all Kodak dealers and customers of Dolev 2-up/4-up computer-to-film (CTF) products.

As a result of the declining customer base for Dolev products and Kodak's correspondingly higher costs, Kodak has made the decision to end all service agreements for the following Dolev CTF products, effective April 30, 2010. We will continue to provide remote support and on-site service on a time and materials basis for these products until June 30, 2010. However, after April 30, 2010, Kodak will not be able to guarantee the availability of parts. After June 30<sup>th</sup>, 2010, Kodak will no longer provide any support or parts for these products.

Kodak believes in the future of CTP and is committed in providing its customers with the most advanced CTP solutions available in the market today. Currently Kodak offers a wide range of CTP promotions to help you meet your economic needs. If you have any questions or would like to hear more about Kodak's CTP offerings, please call 1-800-929-9209 or e-mail us at [insidesales@kodak.com](mailto:insidesales@kodak.com).

We look forward to continuing our mutually beneficial partnership long into the future.

Sincerely,

*Thomas M Krumm*
